De dissidenten Jonathan Lethem 2014-04-26 In De dissidenten vormen de stad New York en de twintigste eeuw het perfecte decor om een buitengewone familie op te voeren: de Zimmers. Rose Zimmer `De Rode Koningin van Sunnyside Queens is een ouderwetse communiste die met haar wispelturige persoonlijkheid en dwingende overtuigingen de buurt en haar familie tiranniseert. Haar even briljante als koppige dochter Miriam is al net zo n gepassioneerde activiste, maar zij weet de verstikkende invloed van Rose te ontvluchten en omarmt de hippiecultuur van Greenwich Village. Gedurende hun leven weten beide vrouwen ieder op eigen wijze de verschillende mannen in hun leven aan zich te binden: echtgenoten, minnaars, excentrieke neven en een briljante zoon. Al deze idealistische, onvolmaakte New Yorkers worstelen met hun utopische dromen, in een Amerika waar radicalisme wordt bekeken met ontsteltenis, vijandigheid of onverschilligheid. Met zijn buitengewoon levendige proza brengt Lethem een groot deel van de twintigste eeuw in beeld, maar uiteindelijk vormen familieverhoudingen en liefde het hart van deze Great American Novel. `De dissidenten is een voorlopige kroon op zijn oeuvre. *****de Volkskrant

Reading and the Reference Librarian Juris Dilevko 2014-10-16 Reference librarians are no longer expected to know much about the information they find; they are merely expected to find it. Technological competency rather than knowledge has become the order of the day. In many respects, reference service has become a matter of typing search terms into a library's online catalog or a web search engine and providing the patron with the results of the search. Calling for a re-intellectualization of reference librarianship, this book suggests another approach to providing quality reference service--reading. The authors surveyed both academic reference librarians and public library reference personnel in the United States and Canada about their reading habits. From the 950 responses, the authors present findings about the extent to which librarians read newspapers, periodicals, fiction and nonfiction, and recount and analyze stories about how reading has made them better librarians. The authors also report that North American professors in the humanities and social sciences believe that the best reference librarians are those who have wide-ranging, subject-based knowledge as opposed to the type of process-based, functional knowledge that is increasingly dominating the curricula of many Library and Information Science programs.

Voor de liefhebbers van 'Buffy The Vampire Slayer', 'Charmed', 'True Blood', 'Once Upon A Time' en de boeken en serie 'Twilight'. Mercy Thompson wil gewoon een normaal leven leiden, met haar eigen garagebedrijf, haar kat en haar vrienden om haar heen. Maar als je zelf de vorm van een coyote kunt aannemen, je buurman een weerwolf is, en je onder je vrienden ook vampieren en fae kunt rekenen, is 'normaal' soms ver te zoeken. Dus als een van haar vrienden bedreigd

wordt door een groep schimmige figuren die uit lijken te zijn op geweld, steekt Mercy daar een stokje voor – maar de situatie blijkt een stuk explosiever dan ze had gedacht... 'Een fantastisch boek met veel plotwendingen. Ik voelde mee met haar sterke personages en keek meteen uit naar het volgende deel.' Kim Harrison, auteur van de 'Heksen'-serie 'Ik ben dol op deze serie!' Charlaine Harris, auteur van de 'True Blood'-serie

Ze laat zien dat het verhaal van de familie Lacks onlosmakelijk verbonden is met de duistere geschiedenis van het experimenteren met
