Tech Ed Linda Clarkin 1997

Writing for the Real World Mary Peters 1999-01-29 The activities and teaching strategies in Writing for the Real World will help students to realize the importance of writing. Personal writing activities emphasize writing as a source of lifelong learning and pleasure through diary and journal entries, autobiographies, personal letters, and illustrated stories and poems. School writing activities give them practice in taking notes, responding to readings, writing in specific content areas, completing research papers, answering questions on essay tests, and writing timed essays for assessment. Workplace writing activities give students experience in the kind of writing they may be required to do in the workplace. Your students will learn to write efficiently and effectively in any situation.

Teaching the Classics, Grade K-1 Instructional Fair 2001 Get your students excited about reading -- and the Bible -- with this series! Besides vocabulary, critical thinking questions, and skill-oriented worksheets, each book contains curriculum-related activities and projects to make reading come alive in your classroom. Plus, you will find a Bible application section that relates each book to relevant Bible passages and teachings. Whether you home school or have a class of 30 students, this is the literature-based book for you!

What are My Chances? Linda Griffin 1998 Dynamic and motivating activities involve students in a basic understanding of the nature of probability. Games of chance, investment plans, probability trees, and expected value are just a few of the topics covered. Students make predictions, collect data, and analyze their results. Realistic situations will help students to develop number sense about chance events and apply this knowledge to making reasonable predictions about uncertain events. Based on NCTM Standards.

Theme-based Nonfiction Reading Comprehension, Grade 5 Linda Ramke 2003 With the increased focus on literacy in the classroom, it is more important than ever to provide students with interesting reading activities. These reading activities should help develop students' fluency, vocabulary, and comprehension. This book has been written thematically. The use of themes increases reading comprehension skills by focusing students' attention on one subject rather than having to adjust their thoughts to several. The activities reinforce comprehension skill such as finding the main idea, summarizing, inferencing, comparing and contrasting, sequencing, and classification. The activities include a variety of multiple choice, fill-in-the-blank, short answer, and long answer questions.

Middle School Mastery Skills Physical Science Bill Linderman 1997
