Social Innovation Thomas Osburg 2013-06-04 ?Social Innovation is becoming an increasingly important topic in our global society. Those organizations which are able to develop business solutions to the most urgent social and ecological challenges will be the leading companies of tomorrow. Social Innovation not only creates value for society but will be a key driver for business success. Although the concept of Social Innovation is discussed globally the meaning and its impact on the development of new business strategies is still heavily on debate. This publication has the goal to give a comprehensive overview of different concepts in the very innovative field of Social Innovation, from a managerial as well as from a theoretical and social perspective. Over 30 leading thinkers in the field of Innovation, Strategic Management and Organizational Development give a well structured inside on the latest developments and progress in the field of Social Innovation. Thereby the authors not only develop a comprehensive and unique analysis on the state-of-the art of social innovation but also give practical advice and information to business leaders on how to apply the latest management thinking on Social Innovation to daily business decisions. This publication has the intention to become a milestone in the further development of the concept of Social Innovation as well as to further stimulate new business strategies necessary to overcome world most pressing social and ecological challenges.

COVID-19 and a World of Ad Hoc Geographies Stanley D. Brunn 2022-10-17 This book provides an interdisciplinary overview of the causes and impacts of COVID-19 on populations, economies, politics, institutions and environments from all world regions. The book maps the causes, effects and impacts of the virus and describes the impact of the virus on among others health care, teaching and learning, travel, tourism, daily life, local and regional economies, media impacts, elections, and indigenous populations and much more. Contributions to this book come from the humanities, social and policy science disciplines as well as from emerging transdisciplinary fields including climate change, sustainability, health care and epidemiology, security, art, visualization, economic and social well-being, law and borderland studies. As such, this book will be a rich source of information to all those geographers, social scientists and urban and regional planners working in this field.

Globalization, Industrialization and Labour Markets in East and South Asia Rajah Rasiah 2017-10-02 Among the key debates fought in developing economies is whether globalization through liberalization is the means by which economies can industrialize and provide their labour forces with tangible improvements in the material conditions of living. This book addresses this issue head on, using empirical evidence from some of the fastest growing and transition economies from East and South Asia. Countries such as the Philippines and Malaysia have already started to deindustrialize before enjoying industrial maturity, while with the exception of China and evidence of some growth in real wages in the other economies, the evidence appears compelling to suggest that increased industrialization and integration into the capitalist economy have not succeeded in providing significant labour improvement. The evidence suggests that a proactive state, focusing on enhancing the material conditions of labour, is pertinent to ensuring sustainable long term industrialization and thus improving material conditions for workers. This book was originally published as a special issue of the Journal of the Asia Pacific Economy.

Trade Unions in China Tim Pringle 2011-03-09 This book focuses on how the All China Federation of Trade Unions (ACFTU) is reforming under current conditions, and demonstrates that labour unrest is the principal driving force behind trade union reform in China.

Labour Migration in Asia International Organization for Migration 2005 This is the second volume of Labour Migration in Asia. This volume describes and makes an assessment of specific initiatives in selected countries of origin to (1) protect migrant workers through the regulation of recruitment and setting of minimum standards in employment contracts; (2) provide support services to migrant workers through pre-departure orientation and a welfare fund, and (3) enhance the development benefits of labour migration through training, skills development and remittances. The articles are written by labour migration specialists and practitioners from the countries concerned and have been commissioned by IOM, the Department for International Development and the Asian Development Bank.

Reframing Singapore Derek Thiam Soon Heng 2009 Over the past two decades, Singapore has advanced rapidly towards becoming a both a global city-state and a key nodal point in the international economic sphere. These developments have caused us to reassess how we understand this changing nation, including its history, population, and geography, as well as its transregional and transnational experiences with the external world. This collection spans several disciplines in the humanities and social sciences and draws on various theoretical approaches and methodologies in order to produce a more refined understanding of Singapore and to reconceptualize the challenges faced by the country and its peoples.

Costs and Benefits of Cross-country Labour Migration in the GMS Hossein Jalilian 2012 International labour migration can be characterized in three ways - as human aspiration, tradition, and necessity. For some

people, working overseas is a dream. For others, international labour mobility is a tradition. For a great number of people however, international labour migration is an economic necessity. It is the only viable solution to realize their basic human right to a decent life. GMS worker movements to Thailand typify all three characterizations of international labour mobility. While this book focuses on the economic dimensions of international labour emigration, principally from Cambodia, Laos and Vietnam to Thailand, it recognizes at the very outset the equal standing of non-economic motivations for migration. People Management and Development Mick Marchington 2002 This is the leading textbook for students taking the CIPD professional qualification and has been fully revised and rewritten to take account of the new academic standards that will be taught from September 2002. The title has been changed from Core Personnel and Development to People Management and Development to reflect the change in the standards.

The Migration Conference 2019 - Book of Abstracts and Programme Fethiye Tilbe 2019-06-08 We're pleased to welcome you to the Department of Political Science at the University of Bari "Aldo Moro" for the 7th Migration Conference. The conference is the largest scholarly gathering on migration with a global scope. Human mobility, economics, work, employment, integration, insecurity, diversity and minorities, as well as spatial patterns, culture, arts and legal and political aspects appear to be key areas in the current migration debates and research. Throughout the program of the Migration Conference you will find various key thematic areas covered in 598 presentations by 767 contributors coming from all around the world, from Australia to Canada, China to Colombia, Brazil to Korea, and South Africa to Norway. We are proud to bring together experts from universities, independent research organisations, governments, NGOs and the media. We are also proud to bring you opportunities to meet with some of the leading scholars in the field. This year invited speakers include Fiona B. Adamson, Markus Kotzur, Philip L. Martin, Karsten Paerregaard, Ferruccio Pastore, Martin Ruhs, Jeffrey H. Cohen, and Carlos Vargas Silva. Although the main language of the conference is English, this year we will have linguistic diversity as usual and there will be presentations in French, Italian, Spanish and Turkish. We have maintained over the years a frank and friendly environment where constructive criticism fosters scholarship, while being nice improves networks and quality of the event. We hope to continue with this tradition and you will enjoy the Conference and Bari during your stay. We thank all participants, invited speakers and conference committees for their efforts and contribution. We also thank many colleagues who were interested in and submitted abstracts but could not make it this year. We are particularly grateful to hundreds of colleagues who served as reviewers and helped the selection process. We also thank to those colleagues who organised panels and agreed to chair parallel sessions over three days. We reserve our final thanks to the team of volunteers whose contributions have been essential to the success of the conference. In this regard, special thanks are reserved for our volunteers and team leaders Rosa, Alda, Franco, and Aldo from the University of Bari, Tuncay and Fatma from Regent's University London, Fethiye from Namik Kemal University and Vildan from Galatasaray University, Ege from Middle East Technical University, Mehari from Regent's University London, and Gizem from Transnational Press London. Our final thanks are reserved for the leaders of the University of Bari "Aldo Moro" and the Department of Political Science, President of Puglia Regional Administration and Mayor of City of Bari for hosting the Conference and for their generous support in enriching the Conference programme. Please do not hesitate to get in touch with us through the conference email (migrationscholar@gmail.com). Ibrahim Sirkeci and Michela C. Pellicani The Migration Conference Chairs The Migration Conference 2019 The Migration Conference is a global venue for academics, policy makers, practitioners, students and everybody who is interested in intelligent debate and research informed discussions on human mobility and its impacts around the world. The Migration Conference 2019 is the 7th conference in the series and co-organised and hosted by the University of Bari "Aldo Moro", Italy and Transnational Press London. The Migration Conferences were launched at the Regent's Centre for Transnational Studies in 2012 when the first large scale well attended international peer-reviewed conference with a focus on Turkish migration in Europe in Regent's Park campus of Regent's University London. The migration conferences have been attended by thousands of participants coming from all around the world in London (2012), London (2014), Prague (2015), Vienna (2016), Athens (2017), Lisbon (2018), and Bari (2019).

Development Under Stress Saman Kelegama 2006-11-07 This book examines various impediments faced in the development process and implementation of reforms in Sri Lanka, particularly after economic liberalization in 1977. The author maintains that it is a case of development under stress where the outcome has been far below the country's potential. The book describes key features of the Sri Lankan socio-political and economic system that prevented the country from achieving higher levels of economic growth. It explains why it could not match the economic achievements of South Korea and Malaysia-countries that had similar per capita income levels to that of Sri Lanka in the 1950s. The book is divided into five parts. The first part examines 50 years of economic development and the challenges ahead; the second discusses the economic liberalization debate; the third part looks at macroeconomic management during difficult times; the fourth looks at sectoral issues with reference to industry and agriculture; and the final part examines employment and poverty.

Strategic Business Services OECD 1999-09-13 This book presents 21 country case studies on strategic business services which comprise services in computer software and information processing, research and development and technical testing, marketing, business organisation (management consultancy and labour recruitment) and HR development.

Labor Developments Abroad 1971

A Web-Based Approach to Measure Skill Mismatches and Skills Profiles for a Developing Country: Jeisson Arley Cárdenas Rubio 2020-12-30 "Several interdisciplinary studies highlight imperfect information as a possible explanation of skill mismatches, which in turn has implications for unemployment and informality rates. Despite information failures and their consequences, countries like Colombia (where informality and unemployment rates are high) lack a proper labour market information system to identify skill mismatches and employer skill requirements. One reason for this absence is the cost of collecting labour market data. Recently, the potential use of online job portals as a source of labour market information has gained the attention of researchers and policymakers, since these portals can provide quick and relatively low-cost data collection. As such, these portals could be of use for Colombia. However, debates continue about the efficacy of this use, particularly concerning the robustness of the collected data. This book implements a novel mixed-methods approach (such as web scraping, text mining, machine learning, etc.) to investigate to what extent a web-based model of skill mismatches can be developed for Colombia. The main contribution of this book is demonstrating that, with the proper techniques, job portals can be a robust source of labour market information. In doing so, it also contributes to current knowledge by developing a conceptual and methodological approach to identify skills, occupations, and skill mismatches using online job advertisements, which would otherwise be too complex to be collected and analysed via other means. By applying this novel methodology, this study provides new empirical data on the extent and nature of skill mismatches in Colombia for a considerable set of non-agricultural occupations in the urban and formal economy. Moreover, this information can be used as a complement to household surveys to monitor potential skill shortages. Thus, the findings are useful for policymakers, statisticians, and education and training providers, among others."

The Phone Book Telkom (Firm : South Africa) 2008

Microeconomic Policy Clement Allan Tisdell 2008-01-01 The new and updated edition of Microeconomic Policy provides an excellent blend of theory and application to foster understanding of economic-based policy making. The book is eclectic in its approach and addresses a rich set of current applications. It is an ideal book for teaching microeconomic-based policy analysis to students. Todd Sandler, University of

Texas at Dallas, US Designed for students who have already encountered the microeconomic principles, this valuable text focusses effectively on their policy implications, imbuing the apparently dry theory with its insights for the general welfare. William J. Baumol, New York University, US and Princeton University, US A distinctive feature of this book is the application of microeconomics to public policy. As to be expected given the international reputation of the authors there is a thorough treatment of global environmental policies, including the Stern Report, and a very useful chapter on issues of defence, conflict and terrorism. What this text offers, and most competing books do not is the breadth of coverage. In this revised edition we have integration into the topics of advances in behavioural, evolutionary and Austrian economics. The relevance to business management and government policy of the material presented makes the subject come alive in application. . . a refreshing change from the curve-shifting that dominates traditional microeconomic texts which turns-off so many of our students and prevents them from seeing the crucial importance of economics to almost every aspect of our well-being. John Lodewijks, University of Western Sydney, Australia This thoroughly accessible textbook shows students how microeconomic theory can be used and applied to major issues of public policy. In this way, it will improve their understanding of both microeconomic theory and policy and also develop their ability to critically assess them. Clem Tisdell and Keith Hartley have expanded upon their previous successful work on microeconomics. As a result, this new book is considerably updated with substantial chapter revisions, as well as new chapters dealing with business management, ownership, environmental issues, public choice, defence, conflict and terrorism. Promoting a thorough understanding of this complex yet fundamental topic, *Microeconomic Policy: A New Perspective* will undoubtedly prove an invaluable textbook for all students, academics and researchers of economics and public policy.

The benefits and challenges of leveraging social media recruitment practices Patrick Hayes 2013-06-25 Thesis (M.A.) from the year 2012 in the subject Business economics - Personnel and Organisation, grade: B, University of Limerick, course: MA in Business Management, language: English, abstract: In the last decade labour market shortages and recruitment difficulties have led to a more competitive and challenging recruitment market worldwide. These forces make it more important than ever for recruiting teams in organisations to be effective, efficient and creative in the search for talent. As a response, there is a shift from traditional recruiting methods to a new social recruiting approach. This paper will focus on the differences between traditional and social methods of recruiting, identify the key reasons behind the change and discuss the benefits as well as the potential risks. To measure the success of social recruiting the paper will look at reports from leading social recruiting solution companies and case studies of various sized organisations. This paper concludes that there has been a significant shift in usage from traditional recruiting techniques to social recruiting, that social recruiting is increasingly being used by both large and small organisations and is fast becoming a favoured medium of both employers and job-seekers alike. It also concludes that organisations cannot ignore the importance of creating a social recruitment strategy, owing to its role in improving cost of hire, quality of hire and time to hire. The findings are based on secondary research of academic books, journals, reports and case studies covering the areas of social media, recruitment and LinkedIn. The significance of this paper is that it will be a valuable source of information for all organisations looking to leverage social recruiting - and in particular LinkedIn's hiring solutions - to start recruiting. The attached literature review as part of this study is also a good starting point for anyone looking to explore the topics of recruitment, social media and LinkedIn. Keywords: Social media, Social networking, Recruitment strategy, LinkedIn

Routledge Handbook of Japanese Business and Management Parissa Haghirian 2016-01-29 The Routledge Handbook of Japanese Business and Management provides a comprehensive overview of management and business processes and practices in Japanese companies. The contributors combine theoretical findings and research results with a practical and contemporary view on how corporations and firms are managed in Japan. The handbook is divided into eight sections covering: historical perspectives on Japanese management; structure and theory of the Japanese firm; the corporate environment in Japan; the Japanese work environment; the Japanese market; manufacturing and logistics; interaction and communication; the future of Japanese management. This book is an essential reference resource for students and scholars working on Japanese companies, the Japanese market-place, Japanese consumers, or management processes in the Japanese firm. The book also provides an interesting and informative read for managers who need to deepen their knowledge on Japanese business processes.

Blessing and Curse of Intra-EU Mobility Christiane Heimann 2020-09-29 Christiane Heimann provides insights on how the economic and political situation in Spain, Germany and the UK affects the institutional implementation of free labour movement and how mobile EU citizens navigate the institutional policies strategically. The study examines different profiles of EU citizens exercising free labour movement and shows ways of EU labour recruitment and transnational labour integration taking into account the institutional implementation of related EU policies. Intra-Community mobility policies and practices will be assessed in terms of their effectiveness for international recruitment and labour integration.

Top Stocks 2008 Martin Roth 2011-09-19 Top Stocks 2008 is written for every investor who has ever thought, 'There are 1700 companies on the Australian Stock Exchange -- where do I start?' Popular finance author Martin Roth runs the top 500 companies through exhaustive selection criteria and subjects each stock to rigorous analysis. In Top Stocks 2008 you'll find individual analysis of the top Australian companies' latest results; comparative sales and profits data, and in-depth ratio analysis; five-year price charts and shareholder return figures; comprehensive research detailing each company's overall outlook; and 19 tables ranking all companies according to financial data. For those seeking quick and easy access to vital information and statistics on top Australian companies, Top Stocks 2008 is a must-read.

Managing To Change? M. White 2004-05-13 This book presents new and authoritative evidence about change at the workplace, using it to cast light on recent debates about the future of work. The basic questions it poses are whether, and how, British workplaces are responding to the challenge of change, and what are the implications of change both for managers and employees. Using up-to-date information from 2000 workplaces, it provides a realistic basis for envisaging the changes through the first decade of the 21st century. It is accessible to a wide audience of policy makers, managers, professionals, students and academics.

Christianity Across Borders Gemma Tulud Cruz 2021-07-29 This book offers a comprehensive exploration of key issues in contemporary global migration and considers the theological implications for Christianity, in general, and for Christian faith and practice in various parts of the world, in particular. Migrant Christians, who make up the majority of believers on the move and in diaspora, play an increasingly

vital role in world Christianity today. Drawing on cases from across the globe, Gemma Tulud Cruz considers how Christians are faced with immense gifts and tremendous challenges brought by the ever-increasing presence of migrants in their midst and the conditions that characterize contemporary global migration. Migrant Christians themselves face multiple challenges, which have been made more stark by the coronavirus pandemic. The volume will be relevant to scholars of religion and of migration who are interested in a closer examination of what happens to Christians and Christianity, (faith) communities, and nation-states in the age of migration.

Brokering Circular Labour Migration Huey Shy Chau 2020-03-30 This book examines the commercialisation of domestic and care work through private agencies that organise transnational care arrangements by brokering migrant workers. The book focuses on the emergence of private for-profit home care agencies following the 2011 extension of the Free Movement of Workers to Eastern European Countries agreement in Switzerland. The agencies recruit migrant women from these countries and place them in private households for elderly care. This book explores how circular labour migration for these care workers is facilitated. In the form of a mobile ethnography, it traces their journey from Eastern European countries to Switzerland – from when care workers find employment and are recruited by agencies to when they arrive at their designated households. From the agencies' analytical standpoint, the book examines the recruitment and placement practices of the home care agencies and their role in facilitating migration. Brokering Labour Migration offers an understanding of new migration patterns and highlights fundamental changes in migration control with the extension of free movement of workers in Switzerland to lower-wage countries in Eastern Europe. It will be an invaluable resource for academics and scholars of geography, anthropology, sociology, and gender and migration.

Sessional Papers Great Britain. Parliament. House of Commons 1986

Labour, Mobility and Temporary Migration Julie Knight 2017-06-15 Labour, Mobility and Temporary Migration delves into sociological research on Polish migrants who migrated to the lesser-explored South Wales region after Poland joined the European Union in 2004. At the time of enlargement, Polish migrants were characterised as being economically motivated, short-term migrants who would enter the UK for work purposes, save money and return home. However, over ten years after enlargement, this initial characterisation has been challenged with many of the once considered 'short-term' Poles remaining in the UK. In the case of Wales, the long-term impact of this migration is only starting to be fully realised, particularly in consideration of the different spatial areas – urban, semi-urban and rural – explored in this book. Such impact is occurring in the post-Brexit referendum period, a time when the UK's position in the EU is itself complex and changing.
