The Presidency of Calvin Coolidge Robert H. Ferrell 1998 An assessment of Coolidge's presidency draws on the recently opened papers of his White House physician for hitherto unknown personal information and exonerates Coolidge for the failures of his party's foreign policy, but holds him accountable for not having warned Wall Street against the overspeculation that caused the Depression.

Guide to the Presidency and the Executive Branch Michael Nelson 2012-08-13 This comprehensive two-volume guide is the definitive source for researchers seeking an understanding of those who have occupied the White House and on the institution of the U.S. presidency. Readers turn Guide to the Presidency and the Executive Branch for its wealth of facts and analytical chapters that explain the structure, powers, and operations of the office and the president's relationship with Congress and the Supreme Court. The fifth edition of this acclaimed reference completes coverage of the George W. Bush presidency, the 2008 election, and the first 3 years of the presidency of Barack Obama. This includes coverage of their handling of the economic crisis, wars abroad, and Obama's healthcare initiatives. The work is divided into eight distinct subject areas covering every aspect of the U.S. presidency, and all chapters in each

subject area have been revised and updated: Origins and Development of the Presidency, including constitutional beginnings, history of the presidency and vice presidency, and presidential ratings Selection and Removal of the President, including the electoral process, a chronology of presidential elections, removal of the president and vice president, and succession Powers of the Presidency, including the unilateral powers of the presidency and those as chief of state, chief administrator, legislative leader, commander in chief, and chief economist The President, the Public, and the Parties, including presidential appearances, the president and political parties, the president and the news media, the presidency and pop culture, public support and opinion, and the president and interest groups The Presidency and the Executive Branch, including the White House Office, the Office of the Vice President, supporting organizations, the cabinet and executive departments, presidential commissions, and executive branch housing, pay, and perquisites Chief Executive and Federal Government, including the president and Congress, the president and the Supreme Court, and the president and the bureaucracy Presidents, their Families, and Life in the White House and Beyond, including the daily life of the president, the first lady, the first family, friends of presidents, and life after the presidency Biographies of the Presidents, Vice Presidents, First Ladies This new volume also features more than 200 textboxes, tables, and figures. Major revisions cover the supporting White House organizations and the president's role as chief economist. Additional reference materials include

explanatory headnotes, as well as hundreds of photographs with detailed captions. Creating America 1995 Each unit includes guided reading, vocabulary building, skillbuilder practice, geography applications, primary sources, literature selections, reteaching activities, enrichment activities for gifted and talented students, history workshop resources and answer key.

and answers, each volume in the GED series is a quick and easy, focused read.  
Reviewing GED flash cards is the first step toward more confident GED preparation  
and ultimately, higher GED exam scores!

Picking Presidents Gautam Mukunda 2022 "This book synthesizes a new way of

understanding leader selection with research from political science, management, psychology, and other fields, to provide an objective, non-partisan way to evaluate Presidential candidates that anyone can use and that requires only information about candidates that would be widely available before the election. It's a system that American citizens can use to answer the most important question they are ever asked: Should this person be President? We begin by identifying what sort of presidential candidates are likely to become Presidents who will make a real difference. Surprisingly, not all Presidents do. Some, despite the awesome power placed in their hands, are surprisingly inconsequential. Then, we'll examine some of the best and worst of the 44 members of history's most exclusive club, which will help us understand what traits are likely to produce failed and successful presidencies, and how to detect them. Next, we'll use this lens to examine Donald Trump, the modern president who has perhaps inflamed the most intense passions on either end of the political spectrum, and Joe Biden, the President as this book goes to print. Finally, I will suggest some plausible reforms to the way we nominate candidates and changes to the powers of the Presidency that might help us improve the quality and performance of future presidents"--

The Oxford Guide to the United States Government John J. Patrick 2001-07-04 The Oxford Guide to the United States Government is the ultimate resource for authoritative information on the U.S. Presidency, Congress, and Supreme Court. Compiled by three top scholars, its pages brim with the key figures, events, and structures that have

animated U.S. government for more than 200 years. In addition to coverage of the 2000 Presidential race and election, this Guide features biographies of all the Presidents, Vice Presidents, and Supreme Court Justices, as well as notable members of Congress, including current leadership; historical commentary on past elections, major Presidential decisions, international and domestic programs, and the key advisors and agencies of the executive branch; in-depth analysis of Congressional leadership and committees, agencies and staff, and historic legislation; and detailed discussions of 100 landmark Supreme Court cases and the major issues facing the Court today. In addition to entries that define legal terms and phrases and others that elaborate on the wide array of government traditions, this invaluable book includes extensive back matter, including tables of Presidential election results; lists of Presidents, Vice Presidents, Congresses, and Supreme Court Justices with dates of service; lists of Presidential museums, libraries, and historic sites; relevant websites; and information on visiting the White House, the Capitol, and Supreme Court buildings. A one-stop, comprehensive guide that will assist students, educators, and anyone curious about the inner workings of government, *The Oxford Guide to the United States Government* will be a valued addition to any home library.

and unsubstantiated claims surrounding Harding after his death, and examines the mystery of his death

Guide to the White House Staff Shirley Anne Warshaw 2013-03-27 Guide to the White House Staff is an insightful new work examining the evolution and current role of the White House staff. It provides a study of executive-legislative relations, organizational behavior, policy making, and White House–cabinet relations. The work also makes an important contribution to the study of public administration for researchers seeking to understand the inner workings of the White House. In eight thematically arranged chapters, Guide to the White House Staff: Reviews the early members of the White House staff and details the need, statutory authorization, and funding for staff expansion. Addresses the creation of the Executive Office of the President (EOP) and a formal White House staff in 1939. Explores the statutes, executive orders, and succession of reorganization plans that shaped and refined the EOP. Traces the evolution of White House staff from FDR to Obama and the specialization of staff across policy and political units. Explores how presidential transitions have operated since Eisenhower created the position of chief of staff. Explains the expansion of presidential in-house policymaking structures, beginning with national security and continuing with economic and domestic policy. Covers the exodus of staff and the roles remaining staff played during the second terms of presidents. Examines the post–White House careers of staff. Guide to the White House Staff also provides easily accessible

biographies of key White House staff members who served the presidencies of Richard M. Nixon through George W. Bush. This valuable new reference will find a home in collections supporting research on the American presidency, public policy, and public administration.

Guide to the Presidency Michael Nelson 2015-05-01 The Guide to the Presidency is an extensive study of the most important office of the U.S. political system. Its two volumes describe the history, workings and people involved in this office from Washington to Clinton. The thirty-seven chapters of the Guide, arranged into seven distinct subject areas (ranging from the origins of the office to the powers of the presidency to selection and removal) cover every aspect of the presidency. Initially dealing with the constitutional evolution of the presidency and its development, the book goes on to expand on the history of the office, how the presidency operates alongside the numerous departments and agents of the federal bureaucracy, and how the selection procedure works in ordinary and special circumstances. Of special interest to the reader will be the illustrated biographies of every president from Washington to the present day, and the detailed overview of the vice-presidents and first ladies of each particular office. Also included are two special appendices, one of which gathers together important addresses and speeches from the Declaration of Independence to Clinton's Inaugural Address, and another which provides results from elections and polls and

statistics from each office.

The Story of America John Arthur Garraty 1994

The Americans, Grades 9-12 Workbook 2002-03-04

Journal of the House of Representatives of the United States United States. Congress. House 1962 Some vols. include supplemental journals of "such proceedings of the sessions, as, during the time they were depending, were ordered to be kept secret, and respecting which the injunction of secrecy was afterwards taken off by the order of the House."

Choral Masterworks:A Listener's Guide Michael Steinberg 2005-04-22 Michael Steinberg's highly successful listener's guides--The Symphony and The Concerto--have been universally praised for their blend of captivating biography, crystal clear musical analysis, and delightful humor. Now Steinberg follows these two greatly admired volumes with Choral Masterworks: A Listener's Guide, the only such guide available to this most popular of musical forms. Here are more than fifty illuminating essays on the classic choral masterworks, ranging from Handel's Messiah, Bach's Mass in B Minor, and Beethoven's Missa Solemnis, to works by Haydn, Brahms, Mendelssohn, and many others. Steinberg spans the entire history of classical music, from such giants of the Romantic era as Verdi and Berlioz, to leading modern composers such as Elgar, Rachmaninoff, Vaughan Williams, and Stravinsky, to contemporary masters such as John Adams and Charles Wuorinen. For each piece, Steinberg includes a fascinating

biographical account of the work's genesis, often spiced with wonderful asides, such as the true story of Mozart's Requiem--Salieri had nothing to do with the composition of it, nor did he poison Mozart, who most likely died of rheumatic fever. The author also includes an astute musical analysis of each piece, one that casual music lovers can easily appreciate and that musicians and more serious fans will find invaluable. The book also includes basic information such as the various movements of the work, the organization of the chorus and orchestra, and brief historical notes on early performances. More than twenty million Americans perform regularly in choirs or choruses. Choral Masterworks will appeal not only to concert goers and CD collectors, but also to this vast multitude of choral performers, an especially engaged and active community.

American Odyssey Gary B. Nash 2002 A history of the United States in the twentieth century, featuring sociological and cultural events, as well as strictly historical, and using many pertinent literary excerpts.

Dead Last Phillip G. Payne 2009-01-01 "Payne explores such topics as Harding's importance as a midwestern small-town booster, his rumored black ancestry, the roles of various biographers in shaping his early image, the tension between public memory and academic history, and, finally, his status as an icon of presidential failure in contemporary political debates."--BOOK JACKET.

The Smart Aleck's Guide to American History Adam Selzer 2009-12-22 Do you know

America? No, I mean, do you REALLY know America? Would you recognize John Adams in a lineup? Can you identify any presidents between Lincoln and Roosevelt? Hmm. I thought so. Well, you really need this book. Not only will it improve your sorry historical knowledge, it will crack you up, and give you material to throw your teachers off-balance for entire class periods. Identify their lies! Point out their half-truths! And possibly, just possibly, gain some extra credit for yourself.

Building Vocabulary: Student Guided Practice Book Level 9 Timothy Rasinski 2009-05-14 Building Vocabulary from Word Roots helps students unlock the meaning of over 60% of the words they encounter in the classroom and beyond with a systematic approach to teaching vocabulary using Greek and Latin prefixes, bases, and suffixes. Students are introduced to one new root per lesson and this full-color Student Guided Practice Book is filled with daily activities to ensure that they learn the root and the many English words it generates.

Het achterhuis Anne Frank 2009-10-31 Anne Frank hield van 12 juni 1942 tot 1

augustus 1944 een dagboek bij. Zij schreef haar brieven alleen voor zichzelf, tot ze in de lente van 1944 op radio Oranje de minister van Onderwijs, Kunsten en Wetenschappen in ballingschap, Bolkestein, hoorde spreken. Hij zei dat na de oorlog alle getuigenissen van het lijden van het Nederlandse volk onder de Duitse bezetting verzameld en openbaar moesten worden gemaakt. Als voorbeeld noemde hij onder andere dagboeken. Onder de indruk van deze redevoering besloot Anne Frank na de oorlog een boek te publiceren. Haar dagboek zou daarvoor als basis dienen. In maart 1945 stierf Anne Frank op vijftienjarige leeftijd in het concentratiekamp Bergen-Belsen. De enige overlevende van de familie, Otto Frank, zorgde ervoor dat het dagboek van zijn dochter toch gepubliceerd werd. In 1947 verscheen Het Achterhuis. Het is sindsdien een van de meest gelezen boeken ter wereld. Het is in meer dan dertig landen verschenen en er zijn meer dan zestien miljoen exemplaren van verkocht. "Eén enkele Anne Frank ontroert ons meer dan de ontelbaren die net zo leden als zij, maar wier beeld in de schaduw is gebleven. Misschien moet dat ook zo zijn: als we het leed van alle mensen moesten en konden meelijden, zouden we niet kunnen leven." Primo Levi

Greatness in the White House Robert K. Murray 1988 A narrative account of the survey of almost 1,000 professional historians on what constitutes a successful performance in the presidency, this survey tells us almost as much about the thinking and biases of historians as it does about the nature of the American presidency. Besides comparing

past presidential polls and constructing a ranking list of the nation's chief executives, this study examines why historians rate presidents the way they do, and it analyzes those qualities and traits historians look for in a successful president. It also delimits what constitutes a failing performance in the White House and marks the major pitfalls that almost assuredly lead to an adverse historical verdict. In the process, the study demonstrates that there is not always a close correlation between what historians say a president should do and what historians obviously feel when actually ranking the performances of the presidents of the United States. This study should prove enlightening not only to the historical profession but to the general public, political pundits, newscasters, public officials, and all presidential aspirants, and even to past and present occupants of the White House and their staffs.

The Politically Incorrect Guide to the Presidents Steven F. Hayward 2012-02-13 Larry Schweikart, a retired history professor, is ready to set the record straight on the American presidents. He goes through each of the first 26 presidents from Washington to Taft and debunks myths, lies, and fake news made fact by the uninformed. Discover why George Washington favored American isolationism; James Madison supported states' rights; what Lincoln promised to Southerners about fugitive slaves; and why nineteenth-century presidents were the last to understand the true role of government. So what made these presidents so much better than the ones America has now? Schweikart argues that recent commanders-in-chief have welcomed crises to advance

their own partisan agenda, defied the separation of powers the Founders carefully constructed to preserve the Republic, and given us every reason to doubt they take the country's interests to heart.

The Oxford Guide to the United States Government John J. Patrick 2001-07-04 Entries offer profiles of United States presidents, vice presidents, Supreme Court justices, and other significant figures, and information on elections, legislation, Supreme Court decisions, and major issues.
