The Routledge Handbook of Global Historical Archaeology Charles E. Orser, Jr. 2020-07-26 The Routledge Handbook of Global Historical Archaeology is a multi-authored compendium of articles on specific topics of interest to today's historical archaeologists, offering perspectives on the current state of research and collectively outlining future directions for the field. The broad range of topics covered in this volume allows for specificity within individual chapters, while building to a cumulative overview of the field of historical archaeology as it stands, and where it could go next. This is a comprehensive treatment of the sub-discipline, engaging key contemporary debates, and providing a series of specially-commissioned geographical overviews to complement the more theoretical explorations. This book is designed to offer a starting point for students who may wish to pursue particular topics in more depth, as well as for non-archaeologists who have an interest in historical archaeology. Archaeologists, historians, preservationists, and all scholars interested in the role historical archaeology plays in illuminating daily life during the past five centuries will find this volume engaging and enlightening.

Het achterhuis Anne Frank 2009-10-31 Anne Frank hield van 12 juni 1942 tot 1 augustus 1944 een dagboek bij. Zij schreef haar brieven alleen voor zichzelf, tot ze in de lente van 1944 op radio Oranje de minister van Onderwijs, Kunsten en Wetenschappen in ballingschap, Bolkestein, hoorde spreken. Hij zei dat na de oorlog alle getuigenissen van het lijden van het Nederlandse volk onder de Duitse bezetting verzameld en openbaar moesten worden gemaakt. Als voorbeeld noemde hij onder andere dagboeken. Onder de indruk van deze redevoering besloot Anne Frank na de oorlog een boek te publiceren. Haar dagboek zou daarvoor als basis dienen. In maart 1945 stierf Anne Frank op vijftienjarige leeftijd in het concentratiekamp Bergen-Belsen. De enige overlevende van de familie, Otto Frank, zorgde ervoor dat het dagboek van zijn dochter toch gepubliceerd werd. In 1947 verscheen Het Achterhuis. Het is sindsdien een van de meest gelezen boeken ter wereld. Het is in meer dan dertig landen verschenen en er zijn meer dan zestien miljoen exemplaren van verkocht. "Eén enkele Anne Frank ontmoet ons meer dan de ontelbaren die net zo leden als zij, maar wier beeld in de schaduw is gebleven. Misschien moet dat ook zo zijn: als we het leed van alle mensen moesten en konden meelijden, zouden we niet kunnen leven." Primo Levi

Holocaust Remembrance between the National and the Transnational Larissa Allwork 2015-07-30 Holocaust Remembrance Between the National and the Transnational provides a key study of the remembrance of the Jewish Catastrophe and the Nazi-era past in the world arena. It uses a range of primary documentation from the restitution conferences, speeches and presentations made at the Stockholm International Forum of 2000 (SIF 2000), a global event and an attempt to mark a defining moment in the inter-cultural construction of the political and institutional memory of the Holocaust in the USA, Europe and Israel. Containing oral history interviews with delegates to the conference and contemporary press reports, this book explores the inter-relationships between global and national Holocaust remembrances. The causes, consequences and 'cosmopolitan' intellectual context for understanding the SIF 2000 are discussed in great detail. Larissa Allwork examines this seminal moment in efforts to globally promote the important, if ever controversial, topics of Holocaust remembrance, worldwide Genocide prevention and the commemoration of the Nazi past. Providing a balanced assessment of the Stockholm Project, this book is an important study for those interested in the remembrance of the Holocaust and the Third Reich, as well as the recent global direction in memory studies.

Shedding Light on the Darkness Nancy A. Lauckner 2000-09-01 Increasingly, German Studies programs include courses on the Holocaust, but suitable course materials are often difficult to find. Teachers in higher education will therefore very much welcome this volume that examines and reflects both the practical and theoretical aspects of teaching about the Holocaust. Though designed primarily by and for North American Germanists and German Studies specialists, this book will prove no less useful for teachers in other countries and associated disciplines. It presents and describes successful Holocaust-related courses that have been developed and taught at U.S. and Canadian colleges and universities, demonstrating the depth, breadth, and variety of such offerings, while remaining mindful of the instructor's special moral responsibilities. Reflecting as it does, the innovative Holocaust pedagogy in North American German and German Studies, this collection serves the needs of educators who wish to revise or update their existing Holocaust courses and of those who are seeking guidance, ideas, and resources to enable them to develop their first Holocaust course or unit.

Engaging Ethnographic Peace Research Gearoid Millar 2020-06-30 While many have argued in the past decade that peace and conflict studies must engage more with local actors and communities, and scholars regularly describe the importance of local context and culture for building sustainable peace, there are substantial challenges methodologically to fulfilling this 'local turn'. Many peace and conflict studies scholars are inexperienced with methods appropriate for engaging with local communities, contexts and cultures, and many of the important institutions in the field, from key journals to important funders, exhibit a continuing preference for quantitative studies. The Ethnographic Peace Research (EPR) agenda has recently been developed in response to these challenges and is one of the key avenues to providing a methodological complement to the more theoretically-focused local turn literature. This volume explores the application of the EPR approach in a number of post-conflict and conflict-affected societies around the world. While some chapters take a largely theoretical approach, most consider the practical application and the different kinds of methods that may be useful components of an EPR project. Together, the authors provide new insights into the benefits, challenges, and ethics of the emerging EPR agenda. This book was originally published as a special issue

of the journal *International Peacekeeping*.

Israeli Holocaust Research Boaz Cohen 2013 An exploration of the development of Holocaust research in Israel, this book ranges from the consolidation of Holocaust research as an academic subject in the late 1940s to the establishment of Yad Vashem and beyond. Research on the story of historiography is often a work on books, on the "final products" that fill academic bookshelves yet, in *Israeli Holocaust Research*, Boaz Cohen illustrates that the evolution of Holocaust research in Israel has a more human element to it. Drawing on knowledge gained through seven years of work in ten major archives in Israel, the author reveals a previously unseen picture of the development of Israeli Holocaust research "from below," and of the social and cultural forces influencing its character. In doing so, a new facet to the picture emerges, of the story beyond the archive and the people who see Holocaust research as their mission and responsibility. This book will be a fascinating addition to the study of Holocaust research and will be of particular interest to students of history, historiography and Jewish studies

Interactions Werner Dreier 2018-07-03 According to estimates, there are over 100,000 video testimonies with victims of National Socialism. Many of the interview archives are easily accessed, including some that are available in the Internet for free. While teachers are hesitant in making use of this treasure of source materials, learners are familiar with the figure of the eye-witness as communicated via film and television. But what can be taught with the help of what in cinematographic terms is often criticised as "talking heads"? What constitutes a good learning setting? And how do users interact with the - usually digitised - video testimonies and the collections that are often available online? In January 2017 experienced educators and researchers attended an international workshop on "Localisation of video testimonies with victims of National Socialism in educational Programmes" and discussed the question of what is good practice in this specific form of educational work. This volume is the result of that process. It provides an insight into the conceptual and practical ideas on which the various programmes are based. The book also has a focus on video testimonies presented at historical exhibitions and includes contributions from many countries, such as Belarus, Canada, Israel, Macedonia, the Netherlands and South Africa.

Teaching for Historical Literacy Matthew T. Downey 2015-07-30 Teaching for Historical Literacy combines the elements of historical literacy into a coherent instructional framework for teachers. It identifies the role of historical literacy, analyzes its importance in the evolving educational landscape, and details the action steps necessary for teachers to implement its principles throughout a unit. These steps are drawn from the reflections of real teachers, grounded in educational research, and consistent with the Common Core State Standards. The instructional arc formed by authors Matthew T. Downey and Kelly A. Long takes teachers from start to finish, from managing the prior learning of students to developing their metacognition and creating synthesis at the end of a unit of study. It includes introducing topics by creating a conceptual overview, helping students collect and analyze evidence, and engaging students in multiple kinds of learning, including factual, procedural, conceptual, and metacognitive. This book is a must-have resource for teachers and students of teaching interested in improving their instructional skills, building historical literacy, and being at the forefront of the evolving field of history education.

The Anatomy of the Holocaust Raul Hilberg† 2019-11-01 Though best known as the author of the landmark 1961 work *The Destruction of the European Jews*, the historian Raul Hilberg produced a variety of archival research, personal essays, and other works over a career that spanned half a century. *The Anatomy of the Holocaust* collects some of Hilberg's most essential and groundbreaking writings—many of them published in obscure journals or otherwise inaccessible to nonspecialists—in a single volume. Supplemented with commentary and notes from Hilberg's longtime German editor and his biographer, it not only offers a multifaceted look at the man and the scholar, but also traces the evolution of Holocaust research from a marginal subdiscipline into a diverse and vital intellectual project.

Teaching Tough Topics Larry Swartz 2020-01-15 *Teaching Tough Topics* shows teachers how to lead students to become caring citizens as they read and respond to quality children's literature. It focuses on topics that can be challenging or sensitive, yet are significant in order to build understanding of social justice, diversity, and equity. Racism, Homophobia, Bullying, Religious Intolerance, Poverty, and Physical and Mental Challenges are just some of the themes explored. The book is rooted in the belief that by using picture books, novels, poetry, and nonfiction, teachers can enrich learning with compassion and empathy as students make connections to texts, to others, and to the world.

Women Defying Hitler Nathan Stoltzfus 2021-08-12 This timely volume brings together an international team of leading scholars to explore the ways that women responded to situations of immense deprivation, need, and victimization under Hitler's dictatorship. Paying acute attention to the differences that gender made, *Women Defying Hitler* examines the forms of women's defiance, the impact these women had, and the moral and ethical dilemmas they faced. Several essays also address the special problems of the memory and historiography of women's history during World War II, and the book features standpoints of historians as well as the voices of survivors and their descendants. Notably, this book also serves as a guide for human behaviour under extremely difficult conditions. The book is relevant today for challenging discrimination against women and for its nuanced exploration of the conditions minorities face as outspoken protagonists of human rights issues and as resisters of discrimination. From this perspective the voices being empowered in this book are clear examples of the importance of protest by women in forcing a totalitarian regime to pause and reconsider its options for the moment. In revealing so, *Women Defying Hitler* ultimately foregrounds that women rescuers and resisters were and are of great continuing consequence.

Łódź? Ghetto Isaiah Trunk 2006 In his comprehensive examination of the Łódź Ghetto, originally published in Yiddish in 1962, historian Isaiah Trunk sought to describe and explain the tragedy that befell the Jews imprisoned in the first major ghetto imposed by the Germans after they invaded Poland in 1939. Łódź had been home to nearly a quarter million Jews. When the Soviet military arrived in January 1945, they found 877 living Jews and the remains of a vast industrial enterprise that had employed masses of enslaved Jewish laborers. Based on an exhaustive study of primary sources in Yiddish, Hebrew, Polish, German, and Russian, Isaiah Trunk, a former resident of Łódź, reconstructs the organization of the ghetto and discusses its provisioning; forced labor; diseases and mortality; crime and deportations; living conditions; political, social, and cultural life; and resistance. Included are translations of the 141 documents that Trunk reproduced in his volume.

Real Functions Vasile Ene 1995 Most books devoted to the theory of the integral have ignored the nonabsolute integrals, despite the fact that the journal literature relating to these has become richer and richer. The aim of this monograph is to fill this gap, to perform a study on the large number of classes of real

functions which have been introduced in this context, and to illustrate them with many examples. This book reports on some recent advances in the theory of real functions and can serve as a textbook for a course in the subject, and to stimulate further research in this exciting field.

Bringing Human Rights Education to US Classrooms Susan Roberta Katz 2015-04-09 This book offers research-based models of exemplary practice for educators at all grade levels, from primary school to university, who want to integrate human rights education into their classrooms. It includes ten examples of projects that have been effectively implemented in classrooms: two from elementary school, two from middle school, three from high school, two from community college, and one from a university. Each model discusses the scope of the project, its rationale, students' response to the content and pedagogy, challenges or controversies that arose, and their resolution. Unique in integrating theory and practice and in addressing human rights issues with special relevance for communities of color in the US, this book provides indispensable guidance for those studying and teaching human rights.

Holocaust Historiography in Context David Bankier 2008 The modes in which historical research is being shaped have become themselves topics of research. Holocaust historiography - the documentation, depiction and analysis of one of the most horrific events in human history - is today a wide ranging academic field in which Jewish and non-Jewish scholars throughout the world are active. But how did this historiography, especially its Jewish aspect, emerge and by what factors was it shaped? This volume examines the very beginnings of the effort to apply scholarly standards to the understanding of the Holocaust - when World War II was still raging and immediately after it had ended.

Those who understand it is imperative students graduate with the ability to think critically and express a point of view now have a vehicle with which to achieve their goals. Writing in the Social Studies will be the first book to tackle this crucial yet neglected corner of the curriculum. There is a desperate need for professional development in this area, and therefore also tremendous opportunity. It is a professional imperative that social studies educators teach a variety of writing skills through content. As a result they should have access to a resource which clearly and engagingly shows them how. This is Writing in the Social Studies.

Rebirth of a Culture Hillary Hope Herzog 2008-08-30 After 1945, Jewish writing in German was almost unimaginable-and then only in reference to the Shoah. Only in the 1980s, after a period of mourning, silence, and processing of the trauma, did a new Jewish literature evolve in Germany and Austria. This volume focuses on the re-emergence of a lively Jewish cultural scene in the German-speaking countries and the various cultural forms of expression that have developed around it. Topics include current debates such as the emergence of a post-Waldheim Jewish discourse in Austria and Jewish responses to German unification and the Gulf wars. Other significant themes addressed are the memorialization of the Holocaust in Berlin and Vienna, the uses of Kafka in contemporary German literature, and the German and American-Jewish dialogue as representative of both the history of exile and the globalization of postmodern civilization. The volume is enhanced by contributions from some of the most significant representatives of German-Jewish writing today such as Esther Dischereit, Barbara Honigmann, Jeanette Lander, and Doron Rabinovici. The result is a lively dialogue between European and North American scholars and writers that captures the complexity and dynamism of Jewish culture in Germany and Austria at the turn of the twenty-first century.
